

SAIC – SNOW SKIING AND/OR SNOWBOARDING

This activity checklist complements the guidance provided in ANP4914 and provides assurance measures the activity will be conducted in accordance with the ANC's overall Risk Management Policy.

Given the higher level of hazards and risks involved with skiing / snowboarding, there are specific policy requirements that must be regularly reviewed and understood prior to commencement.

Where there is a third party providing ski/snowboard lessons, this SAIC is still required.

The SAIC has three distinct phases;

- Activity Planning
- Activity Conduct
- Activity Post Conduct

Risk management is to occur through the activity planning and activity conduct stages

Refer to ANP4914 – Chapter 5, Section 15 - Skiing and Snowboarding

ANP4914 Chapter 5, Section 1 – Activity Planning

ANP4914 Chapter 4, Section 2 - Supervision

Location	Date	Activity Number	Officer in Charge	Unit/Flotilla

Activity Planning Considerations				
ENVIRONMENT				
Have you:	YES	NO	N/A	Comment
Assessed the weather and other conditions are suitable to safely conduct the activity				Considerations include but not limited to: Temperature, wind speed, rain, extreme cold, blizzard, fire danger, thunderstorms, time (daylight / night) Impaired visibility risk should be low Slopes are appropriate for skill
Assessed the site (facility / grounds) where the activity is to be conducted is applicable and suitable to safely conduct the activity				Check for icy surfaces, deep powder, steep slopes, moguls, terrain parks, etc..
Assessed there is adequate lighting available and working for activity, if conducted at night.				Night skiing must be reviewed and approved prior to activity

PEOPLE				
Assessed there are a suitable number of qualified ANC personnel to safely conduct the activity, including supervisory ratios				The appropriate supervisory levels vary depending on the activity and other considerations including but not limited to: Gender balance Staff suitability: Staff must be competent and experienced in skiing/snowboarding Anticipated environmental conditions and duration of activity – participants must have a good level of fitness
Participants skill levels have been assessed and activities are within ability				Beginners should start with professional lessons by an instructor Participants are briefed and able to use lifts
Received all medical information for cadets and staff (PE149s) in readiness for commencement of activity				Outline any limits on participation, and details of medication, allergy and anaphylaxis plans Individual Health Management Plans (MAMP) are uploaded to CadetNet.
Scheduled an adequate number of stand easy/breaks into the program to ensure cadets and staff have adequate rest				With consideration to high risk of fatigue. Ensure supervision is adequate
Completed a head count at commencement and throughout the activity.				Confirmed Numbers of: Officer of Cadets = ____ DAHs = ____ Cadets = ____
LOGISTICS				
Advised participants of equipment / clothing requirements				Inform cadets and staff of equipment and clothing they should bring. Note anticipated weather conditions and seasonal factors
Assessed communication equipment is suitable for the location and conduct of the activity				Mobile phone / radio / EPIRB
Activity Conduct Considerations				
PEOPLE				
Have you or provider	YES	NO	N/A	Comment
Provider or OIC conducted an activity briefing prior to commencing the activity				Brief should: Outline the activity

				Detail what cadets and staff will do and what is expected of them What are the key safety considerations (hazards and risks), site-specific concerns and what are the plans in the case of an incident. Who is the nominated Safety Officer for the activity Advise how to respond to incidents and emergencies Location of emergency muster point What are the first aid plans
Confirmed the Emergency Plan				Details of local hospital and police. Consider situations that could occur and how you plan to respond.
Reviewed PE149s and acknowledge the cadets and staff with medical issues. Specifically, MAMP must detail plans for allergies and anaphylaxis and ensure all members who have disclosed a medical condition have the appropriate medication and quantity that will cater for the entire activity.				Where there is a cadet with a disability, the MAMP must outline how the activity will be adjusted to provide the cadet an opportunity to participate. Or include evidence / advice that such an adjustment is not reasonable / not achievable. All medication required during the activity must be sighted prior to commencement.
Advised members the location of a shaded area where they can rest when required				
Confirmed all members have appropriate participant equipment and clothing				This list includes but not limited to: Drink bottle (filled with water) Hat/Broad Brimmed Hat Have applied sunscreen Suitable footwear for activity Clothing
Confirmed supervisory responsibilities are appropriately assigned.				Supervisory ratios, etc. Are members assigned supervisory responsibilities qualified / experienced and suitably screened?
Advised cadets and staff of safety considerations when conducting activities in the public domain				Staff members are to ensure that no inappropriate interactions occur between youth and members of the public

If using a Third party provider, written confirmation that they are comfortable with all participants and their declared medical and health conditions Where managed by an ANC Adult member, they are to provide written confirmation they are comfortable with all participants and their declared medical and health conditions				
Requirements from Third Party Provider (or ANC adult member) has been received and communicated to all participants, this should include but not limited to clothing to be worn and behaviour expectations.				
Ski Patrol to be utilised as first responder to an injury because of their ability to attend faster and having the right equipment for the location				All participants are to be advised how to contact Ski Patrol
Confirmation of a decided safe area that is manned by an adult member for the entire activity of skiing or snowboarding. All participants are to physically sight this area.				If able to mark location on a map and provide a copy to all participants Copy to be attached
Confirmation that briefing has been provided to all participants, including boundaries for activity, buddy system for all participants and check in requirements. Separate adult member briefing to occur to ensure they are focused on supervision of Cadets, especially on ensuring no one is over-exerting themselves or pushing themselves to far.				Notes to be attached
Completed a head count at regular intervals of activity? Note, how often head counts conducted, every _____ mins				Who is responsible for ensuring head count correct each time: Name: _____ Note where are all check ins being recorded and tracked _____

Warm beverages and snacks are available for all staff and cadets.				
EQUIPMENT				
Confirmed a grab bag is provided for the activity and contents checked.				Detail location of grab bag: Refer to ANP4914 Chapter 6 Section 3
Confirmed that all equipment being used fit for purpose and safe				
TRANSPORT				
The member(s) of staff responsible for driving and the vehicle(s) used to transport ANC members to and from activities is / are appropriately licensed / registered / insured?				
The member(s) of staff responsible for driving are not impaired by fatigue prior to driving?				
The vehicle(s) used to transport all members to and from activity is appropriately maintained and suitable for the activity?				

Post Activity Considerations				
Have you:	YES	NO	N/A	Comment
Completed head count on completion of the activity.				Confirmed Numbers of: Officer of Cadets = ____ DAHs = ____ Cadets = ____
Confirmed that all applicable Incident Reports & Sentinel Reports have been submitted/lodged?				Refer to ANP4914 Chapter 6, Section 1
Completed the CadetNet Activity Roll?				
Undertaken Debrief with all participants and those that supported activity				Copy of notes to be attached

Unexpected Hazards and Risks arising during the risk assessment process or the activity: If an unexpected Hazard or risk arises at the site before or during the activity, the Supervisor is required to rate the risk using the SRA risk Matrix and determine an appropriate control or cease the Activity, complete the following table and advise the control measure to all members.

Step	Hazard	Risk	Control

Notes:

If the answer to any of the above is "No", comments are mandatory, and the activity cannot commence until the associated Hazard Risk Assessment or Standing Risk Profile has been reassessed, and the residual risk is assessed as being acceptable.

If the answer is Not Applicable (N/A), comments are mandatory.
